

The Common Core asks us to create lessons that are:

- Aligned with college and work expectations;
- Clear, understandable and consistent;
- Include rigorous content and application of knowledge through high-order skills;
- Build upon strengths and lessons of current state standards;
- Prepared students to succeed in our global economy and society; and
- Evidence-based.

Inquiry, Information, Technology & Common Core
Lesson Plan

Learning Objective EQ	Begin with the end in mind.	Ideas for Technology & Information Integration And other notes
Real Life Application: "Rigor & Relevance"	Where would the student see this? Why is this important?	
Students will know:		
Students will be able to do:		
How is this plan student centered?		
Content Vocabulary		Information literacy vocabulary? Word walls, assessment content,
Information Resources	See your librarian if you are unsure (CARS = Credible, reliable, accurate, supported)	

WSWHE School Library System

Do I need Complex Text?	Lexile.com, Lexile Analyzer, Opals catalog, Word Readability Statistics, Books, database articles, primary source documents. List all materials and resources being used. Record the Lexile ranges for all resources.	K-1 2-3 4-5 6-8 9-10 11-12	N/A 450-725 645-845 860-1010 960-1115 1070-1220
Pre-assessment	How can I capture the base-line knowledge level prior to teaching – to direct instruction:		
Hook: Different learning activities. Use a separate line for each Indicate for each task,	How can we activate thinking? Link the unknown to something known. Video, pictures, brainstorming questions, discussion:		
Direct Instruction (if necessary)	No longer than age +/- 2 minutes.		Awareness - connection
Hands-on Learning Task			Comprehension
Hands-on Learning Task			Application – demo
Formative Assessment tools:	Checklists, discussion rubrics, vocabulary usage, quizzes, questioning, timeline benchmarks, graphic organizers,		Awareness - connection
Closure Assessment Tools	How can we capture/measure student success?		Comprehension
			Application – demo
			Analyze Synthesis
			Express,
			connect, evaluate
